

New Profile Pages With Hints

We are proud to release the all-new profile pages on MyHeritage. The enhancements include a better layout and cool new features. We've also added Hints, which are a unique, highly useful way of presenting new details from your matches within the context of an individual profile. With this update, the profile pages are now more useful than ever!

Historical Record Collections Added in February

In February 2024, we published 168 million historical records in 18 historical record collections from the United States, the United Kingdom, Australia, Austria, Czechia, Germany, Peru, and Wales. The records include newspapers, passenger lists, marriage licenses, civil registration of births, electoral registers, and telephone directories.

U.K. Man Finds his Mother's Family with MyHeritage DNA

3 years after the loss of his mother, U.K. user Peter Stefanovic embarked on a MyHeritage DNA journey that would unveil the identity of her father and introduce him to 3 half-siblings he never knew existed. The family recently met for the first time and were overwhelmed by the love and emotion at the gathering. They couldn't help but compare the surprising genetic resemblances that many of the newfound relatives shared.
